

\$99 BubbleLife Local Advertising

BubbleLife.com provides news to more than 200,000 people in the Dallas-Fort Worth area. Divided into 60 individual communities, local news is delivered daily by email and in real-time to community news websites.

BubbleLife attracts readers with strong passions for their neighborhood and the people most likely to shop and do business with local merchants. Nobody brings a local community audience together better than BubbleLife.

Print newspapers have moved away from local neighborhood coverage and BubbleLife is the only provider of daily neighborhood news. Our modern newspaper delivers by email instead of to the doorstep, delivering news to where busy residents want to read it – mobile devices, cell phones, tablets and online.

For \$99 per month, BubbleLife will provide local exposure to one BubbleLife community in the BubbleLife network of 60 Dallas/Fort Worth Communities.
